

Support of Harmonized PTI Label Format

April 2020

At Wegmans, our mission is to help make great meals easy so our customers can live healthier, better lives through food. Produce is a health choice for customers and we remain committed to making sure the products we sell customers are safe.

Wegmans supports the Romaine Task Force recommendations and this further work resulting in the agreed upon Harmonized PTI label format. We know that agreement to this standardized label will help suppliers simplify PTI case labeling and assist with broader adoption in support of traceability efforts.

Should you have questions about our PTI requirements please reach out to me or anyone on our Produce team.

Thank you,

Martha Hilton
Vice President Produce and Floral
